

WHAT ALL CFOS NEED TO KNOW ABOUT CLOUD-BASED SOFTWARE SOLUTIONS

AUDIENCE RESPONSES TO WEBCAST POLLING QUESTIONS 8-28-2018

According to Gartner, the Cloud will be the default option for software deployments by 2020. However, many financial professionals and their IT team members are concerned about the security of their data in solutions that are not on-premise.

To help remedy these concerns, we hosted a webinar to discuss how Cloud technology can benefit the office of finance without putting its data at risk.

QUESTION 1:

What would be most beneficial for your IT team to focus on if they were given additional time?

26%

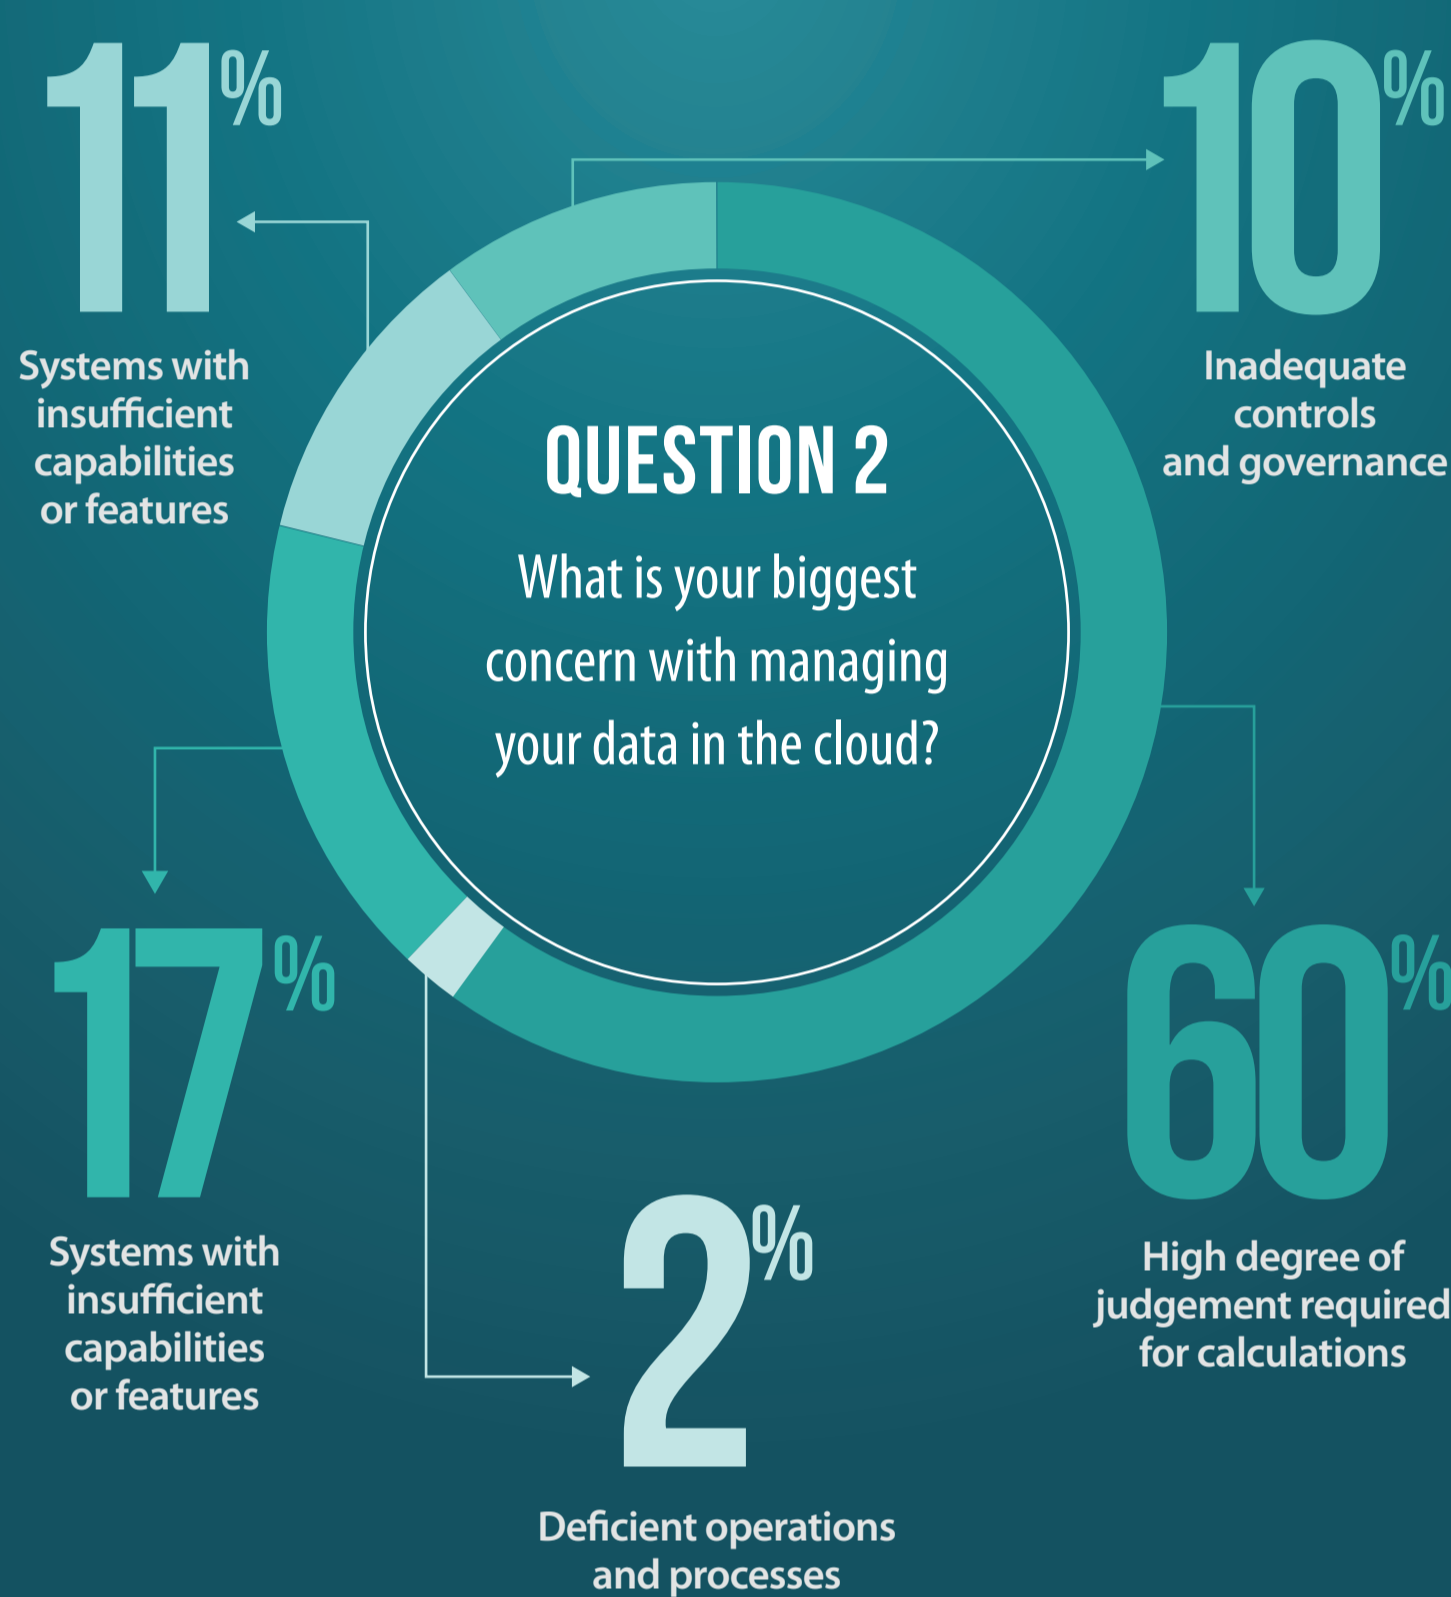

Researching software resources for the future

60%

Strategic planning and analysis

14%

Becoming educators for end-user trainings

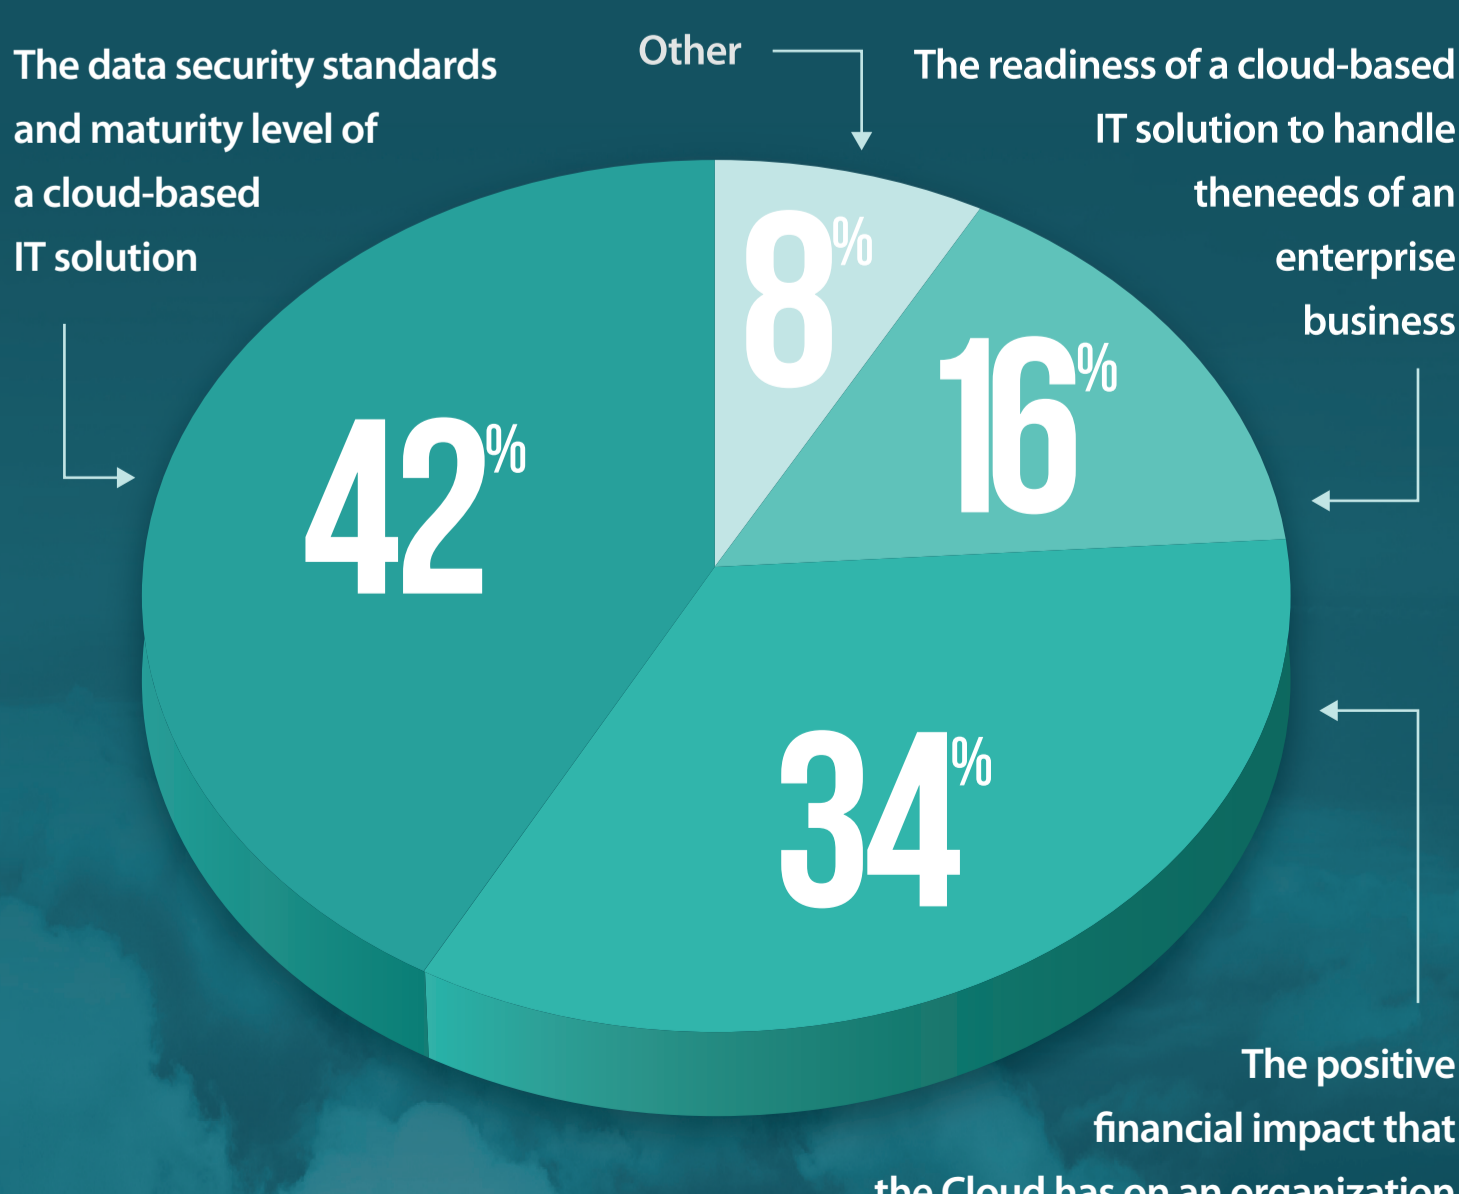

QUESTION 3:

How would you measure the return on investment of a cloud solution?

QUESTION 4:

Which of the following topics covered in this webinar were the most surprising to you?
